

“hungry for change?”

100+ delegates from 9 programme partner countries. This conference itinerary has a lot to deal with in a little time.

A very real metaphor for the private, public & social sectors. Pack your open-minds, leave judgement behind & bring plenty of tolerance along for the ride.

Expect the unexpected as a band of brave creative & cultural entrepreneurs endeavour "constructive value creation" during the event. The creative challenge = 36 hours to add creative value to some, or all, NPP projects.

And in that time we will all get a sense of something-of-the-process during the day and later share the fruits-of-their-labour in a final show & tell...what will happen next?
